## National Funding Summary Guide

### Emergency Relief and Annual Federal Program Funds

### Funding Summary

**$256 billion**

The nation is well positioned to support the most critical PreK–12 education needs through the one-time emergency relief funds provided under the CARES, CRRSA and ARP Acts, as well as the most common U.S. Department of Education (USED) annual formula federal funds for fiscal year 2022.

### Emergency Relief Funds

**$200 billion**

As part of the three emergency relief packages, the USED provided relief funding under its Education Stabilization Fund (ESF). Each act was structured to provide relief funding through the following programs: Elementary and Secondary School Emergency Relief Funds (ESSER I, II, III), Governors Emergency Education Fund (GEER I, GEER II), and the Emergency Assistance for Non-public Schools (EANS I, EANS II). Optimize the never-before-seen federal funding to benefit your school communities now through 2024 and beyond.

### Annual Federal Program Funds

**$56 billion**

The federal government provides funding to all states on an annual basis through complex formulas determined by Congress. Approximately 9% of the total education funding comes from the federal government. The Fiscal Year (FY) 2022 USED proposed budget is historic, with total of $102.8B in discretionary appropriations ($29.3B above FY21). The most common federal funds (Title I, II, III, IV and IDEA) are expected to benefit the most from these monumental increases.

Funding Education Needs

Allowable Uses

The Emergency Relief Funds have up to 15 allowable uses to help school communities in areas such as:

- Personnel
- Safety
- Supplies
- Hunger
- Distance Learning
- Connectivity
- Family Services
- Mental Health
- Professional Development
- Summer School, After-School
- Software Purchases
- Devices
- Instructional Plans
- School Facilities
- Air Quality
- Learning Loss
- Curriculum Development

Student Priorities

Imagine Learning helps underrepresented student subgroups disproportionately impacted by COVID-19 through research, evidence-based solutions, and professional development offerings that ignite engagement, maximize personal relevance, amplify confidence, and inspire breakthroughs for students.

Learn more about our research on addressing the unique needs of children with disabilities and English learners, as well as our research efforts on families of color, justice and equity, and educational equity.
